

I do not believe our founding fathers envisioned monopolies on our choices. Currently Comcast is a monopoly in my neighborhood and because I consider internet an essential service, I sign up for automatic bill pay. On 5/26/05 Comcast disconnected my cable in what they term 'a routine audit'. When my cousin who was home asked the Comcast Tech what was happening, he said read teh paper, don't ask me anything.

When I called Comcast, showing all of automatic payments from my bank account. They said we didn't disconnect for non-payment. We are doing routine audit. BUT, here's the catch. When I signed up for Basic Cable over 2 years ago, it was channel 2-72 (60 stations), well, that package died and now its channels 2-25 (20 stations) so that's why they needed to disconnect!

WHERE IS THE JUSTICE? NO MORE MONOPOLIES!!!!!!!!!!!!!!
